Phenomenological  
Research Methods -  
Humanistic psychology is a  
psychological perspective  
that rose to prominence in  
the mid-20th century in  
answer to the limitations of  
Sigmund Freud's  
psychoanalytic theory and  
B. F. Skinner's  
behaviorism. With its roots  
running from Socrates  
through the Renaissance,  
this approach emphasizes  
individuals' inherent drive  
towards self-actualization ...
