Precognition (from the
Latin prae-, "before" and
cognitio, "acquiring
knowledge"), also called
prescience, future vision,
future sight is a claimed
psychic ability to see events
in the future. Sun, 17 Feb

Precognition - Wikipedia -
In psychology and
cognitive science, a
memory bias is a cognitive
bias that either enhances or
impairs the recall of a
memory (either the chances
that the memory will be
recalled at all, or the
amount of time it takes for
it to be recalled, or both), or
that alters the content of a
reported memory. List of
cognitive biases -
